Governor of the Eastern Province

Realizing Visions

## Connecting Valves Professionals Globally

### About International Valves Conference and Exhibition (Valve-X)

The International Valves Conference and Exhibition (Valve-X) is a platform to build a stronger base in the world's most significant oil and gas resource region, boosting valuable valve market potentials. Valve-X will be a main channel for the Middle East valve industry, consolidating advantages and opportunities in both energy and utilities sectors.

With a vision of gathering of industry leaders and experts in the field of valve technologies and flow control solutions, this multifaceted event offers informative and dynamic platform showcasing cutting-edge products and services, fostering unparalleled networking opportunities, and creates a community for knowledge exchange and collaboration among industry players.

With a vision of gathering of industry leaders and experts in the field of valve technologies and flow control solutions.

## One Valve Community

The International Valves Conference and Exhibition (Valve-X) will create another milestone as it opens the door to one challenging market, the Middle East. Aiming for greater collaborations among leading industry players and paving significant support to businesses looking for growth, technology advancements, digital solutions, and market exposure.

Saudi Arabia  
As a new emerging economy

## Developing Valve Market Potentials.

The International Valves Conference and Exhibition (Valve-X) offers a valuable opportunity for networking and building connections in the largest oil and gas resource region globally. It facilitates business growth and encourages partnerships in the international valves market and emerging Middle Eastern markets. Moreover, this event explores potential opportunities for valve technologies in the water sector. As a result, Valve-X serves as a prominent global platform that brings together various industries and stakeholders, providing unparalleled industry insights and networking prospects.

As a result, Valve-X serves as a prominent global platform that brings together various industries and stakeholders, providing unparalleled industry insights and networking prospects.

To build business with purpose and passion.

**Valve-X** is committed to advancing global energy sustainability by acknowledging the crucial role of the valve sector in the energy and utilities industries. The event aims to unite industry leaders and facilitate collaboration to drive sector advancements.

By the industry, for the industry.

# Embracing key Industry Potentials.

**Valve-X** aims to become the premier event in the oil and gas industry for valve technologies and flow control solutions. Its main objective is to serve as the ultimate resource for key players worldwide, leading the charge in manufacturing excellence and technological innovations within the industry. Through the collaboration of industry experts and visionaries, **Valve-X** provides unmatched networking opportunities and a platform for knowledge exchange. By doing so, it helps shape the future of valve technologies and flow control solutions.

## Participating Industries

Oil and Gas

Water Utilities

Aerospace

Chemical and Petrochemical

Energy and Utilities

Manufacturing and Industrial Processes

Marine and Shipbuilding

Pharmaceuticals

Construction and Infrastructure

## Attendee profile

**Valve-X** is the perfect platform for individuals and organizations operating in the valve industry. It caters to the diverse needs of professionals, and through its consolidated benefits, provides organizations with plenty of opportunities to promote their products and services.

Engineers and Technicians

Valve Manufacturers

Procurement Managers

Industry Regulators

Environmental and Sustainability Experts

Maintenance and Operations Managers

Researchers and Academics

Government Representatives

## Engaging Solution Providers

**Valve-X** offers an exceptional opportunity for solution providers in the valve industry to showcase their innovative products, cutting-edge technologies, and expertise to a broad audience of industry professionals and decision-makers. Participating in Valve-X allows solution providers to establish valuable connections, build partnerships, and access potential clients in the Middle East region.

With a focus on industry trends and advancements, Valve-X provides a unique platform for solution providers to demonstrate their capabilities and contribute to the growth and development of the valve industry.

## Event Features

### > Market Specific Conference Sessions

With help of senior executives, we have crafted a very fine array of sessions reflecting strategic issues that have been identified as priorities.

### > Cutting Edge Insights

Connect with the network of leading minds in the valve sector to get roadmap and set a plan of more inputs on the latest action for progression updates, techniques and solutions trending around the globe.

### > Customer Centric Approach

Get enlightened on where you are on your current roadmap and set a plan of action for progression.

### > Network Opportunities

Make some new connections! Swap some business cards and get your face out there in our network breaks!

### > Product Demonstrations

You have a product that will add value or you want a product which will help you succeed. Use Valve-X as the platform for your needs.

### > Engaging Format

Hear in person from international and regional experts about their success and failure stories, practical approaches to sudden issues when they present impressive case study. Understand the significant elements adopted among different business sector from industry expert participating in the panel discussions.

# Valve-X 2024 Overview
